SKILLS

Backend skills:

- C++
- SQL

Frontend skills:

- HTML
- CSS, SASS, TAILWIND
- ReactJS
- Redux
- Figma

TIMUR TITOV

FRONTEND DEVELOPER

I am a second-year student at the Faculty of Mechanics and Mathematics, BSU. My academic journey has been fueled by a deep passion for mathematics and a love for the intricacies of analysis. Exploring the depths of mathematical concepts and their applications brings me immense joy and satisfaction.

PROJECTS

Notion

October, 2023

Built on the React framework and utilizing the Redux library for state management, this project offers a seamless user experience. Users can sign up using their credentials and gain access to a personalized dashboard where they can create, edit, and delete notes.

ReactJS   Redux

Code

API & SPA

October, 2023

The application provides an intuitive user interface where users can view their albums and browse through the photos within each album.

ReactJS

Code
